

Day1JS-Assignments

- 1. **Variable Practice:** Declare three variables using let, const, and var. Assign values and try to reassign them. Observe the differences.
- 2. **Control Flow Exercise:** Write a program that takes an age input and classifies it as "Child" (0-12), "Teenager" (13-19), "Adult" (20+).
- 3. **Loop Challenge:** Write a program that prints numbers from 1 to 10 using all three loops (for, while, do...while).
